

THE GLOBAL SOLUTION TO THE USABILITY OF THE CRYPTO CURRENCIES

We are a global platform with Blockchain + IOTA technology in which the two economies coexist: FIAT money and Cryptocurrencies.

A new model of open and collaborative economy in which the Community access fintech services in a decentralized system, free and without commissions, with the client deciding at every moment the currency with which he/she wants to pay or collect.

THE NEED

Cryptocurrencies have reached our daily lives, but when we try to perform an operation in real time there are no platforms that allow us to operate as in traditional banking. There is no security in transactions or secure systems that allow operations to be carried out to buy products or receive payments through digital currencies.

5 NEEDS = 5 USABILITY SOLUTIONS OF CRYPTOCURRENCIES

- Payment application for iOS & Android
- EurocoinBroker: Exchange & Wallet
- EurocoinToken: Exchange currency
- EurocoinCash: Refuge currency
- Eurocoinpay CARD: make payments anywhere and in real time

5 COMPETITIVE ADVANTAGES

- Unique payment gateway for Crypto & Fiat currency
- Application of payments with the lowest commissions in the market (0.25 -1%)
- Exchange services free or less than 0.25%
- The best operation times (5-15 seconds)
- EurocoinCash has the same parity as the Euro, serving as currency refuge from market volatility.

THE MARKET

The objective is to make the Eurocoinpay Platform initially a reference at European level, developing new services linked to businesses and bringing reputation, trust and security to all potential users of technology. Our market niche is in:

- Crypt users globally, in a market without physical borders
- Men and women with an age range between 16 and 100 years
- People, companies, entities, SMEs, e-commerce, etc.

BUSINESS MODEL

We achieve income from the market of the transactions and operations of our customers, who receive the added value of the speed of almost instant transactions with the lowest market costs, representing a very important and advantageous saving with respect to current means of payments.

Our success will come accompanied by very small commissions, not charging commissions neither for subscription nor for maintenance.

This will be good for our customers and for us as well.

Sector: FINTECH/BLOCKCHAIN

Type of product: Means of Payment

Founding date: January 2017

WHAT HAS THE SALE OF ICO ECT TOKENS BEEN LAUNCHED?

VALUE OF DISRUPTIVE COMPANIES

COMPANY	LAUNCHING	INITIAL VALUE	ACTUAL VALUE
Apple	1980 December	0.51 \$	187.00 \$
Microsoft	1986 March	0.10 \$	98.00 \$
Google	2004 August	50.79 \$	1,080.00 \$
Bitcoin	2009 October	0.003 \$	8,230.00 \$
Facebook	2012 May	42.05 \$	184.00 \$
Eurocoinpay	2018 April	0.50 €	¿....?

Although the technological system and its associated services are already in operation, the launch of the ICO is due to the following reasons:

- Provide the ecosystem with liquidity, for the realization of the Strategic Plan.
- Continue the evolution of technological development and cybersecurity.
- Team maintenance and talent hiring: developers, lawyers, communication, technical business development.
- Opening of new verticals and geographical expansions

WHY ACQUIRE EUROCOIN TOKEN IN THIS FIRST PHASE?

Be the first users to acquire our cryptocurrency, betting on a novel project, involves some risk, but can mean more benefits in the medium / long term.

Have the possibility of multiplying a certain amount of initial money as a result of the success of our project, it can be, in a way, something similar to the success achieved by those who bet on Bitcoin a few years ago.
